

THE PROSTATE CENTRE

DEDICATED TO MEN'S
HEALTH AND URO-ONCOLOGY

The Prostate Centre

part of **HCA** Healthcare UK

Welcome

The Prostate Centre is led by world-renowned experts in men's health and uro-oncology. Dedicated to the diagnosis and management of all prostate problems and urological cancers, our clinic's leading consultants and medical staff provide the highest standards of innovative and evidence-based care.

When visiting us patients will benefit from a fast, accurate results service and access to our multidisciplinary team of specialists and sub-specialists – all of whom are supported by the latest medical technology. We also offer counselling support to all patients.

Patient-centred care

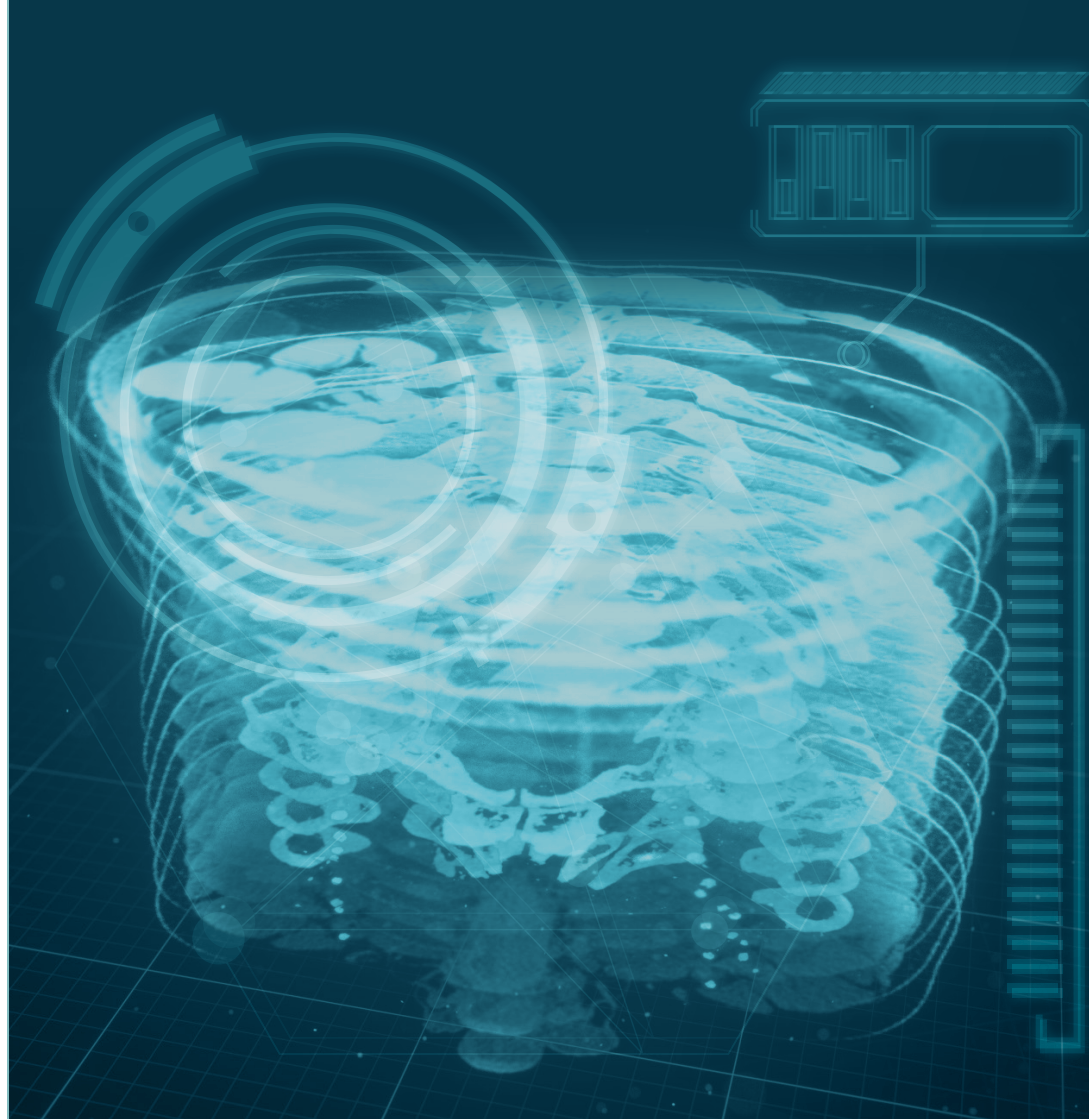

We pride ourselves on taking a holistic approach to all care. This is why from diagnosis, through to treatment and aftercare, we guide each individual through every stage of their patient journey – ensuring they feel completely comfortable and reassured about their care at The Prostate Centre.

We are also available to provide second opinions to both UK and overseas patients with uro-oncology conditions.

Multidisciplinary expertise

Our shared team vision is to have a patient-focused centre of excellence outside of the NHS - where the most renowned experts in prostate disease and men's health work together to provide the highest levels of care available, supported by dedicated specialist nurses and clinical staff.

This is best represented in our weekly multidisciplinary team meeting, the longest running of its kind in the UK, where each of our specialists and subspecialists share their unrivalled expertise on individual patient cases, to ensure patients receive the very best care, no matter what their condition.

Our expertise

At The Prostate Centre we provide highly specialised care and treatment across the full range of prostate and urological conditions, including:

Prostate cancer	Prostate tests
Benign prostatic hyperplasia (BPH) treatments	Kidney cancer
Bladder cancer	Sexual dysfunction
General men's health	Second opinion
